Technical Data Sheet

QM Mold Life Extender

Product Description

QM Mold Life Extender is a ready to use one part room temperature vulcanizing elastomer which cures on exposure to moist air to give a permanently elastic rubber. It has been formulated for use as a mold-life extender for silicone molds.

Typical Properties

UNCURED MATERIAL	
Appearance	Liquid
Solvent	Mineral Spirits
Color	Silver
Specific Gravity, 25ºC/25ºC	0.85
Solids Content, % w/w	25
Tack-free time, min.	25 minutes
Cure through, hours	$\leq$ 10

Surface Preparation

Surfaces should be dry and free from grease, oil, dust, and release agents. The material should be applied as a thin coating by brushing or spraying the material onto the silicone mold.

Shelf-Life and Storage

The shelf-life of this material is 6 months if stored at 25C in its original, unopened container.
